OXFORD HEALTHCARE TECHNOLOGY RANKED IN EPIC CONSULTING REPORT BY KLAS
Healthcare IT Business Line Ranked in Epic Implementation Support and Staffing

May 9, 2016

Beverly, Massachusetts – Oxford Healthcare Technology, a leading provider of staffing and consulting solutions for hospitals and physician groups across the United States, is proud to announce it has been highly rated by KLAS in the 2016 Epic Consulting Report. Out of 10 firms, Oxford Healthcare IT ranked #2 in Overall Select Vendor Performance with a score of 95.6 out of 100.

The summary provided in this report highlights Oxford's ability to provide resources that are not only highly skilled but also the right cultural fit; Oxford's focus on the client's bottom line, specifically in the area of travel expenses; and Oxford's commitment to partner with the client throughout the assignment.

One healthcare director* specifically commented on the high level of dedication and communication shown by the Oxford organization, stating, "I can say that I need to talk in an email's subject line, and someone will call or text me within 30 seconds. We are in different time zones, but I can still connect with Oxford Healthcare IT whenever I need to... If I say that I need a new person now, then they will send resumes to my inbox within 20 minutes."

KLAS is an independently owned and operated healthcare technology research firm that specializes in monitoring and reporting the performance of software, services, and medical equipment vendors. The report recognizes vendors who provided the best resources and support to healthcare companies, enabling them to deliver better patient care.

"This report attests to our commitment to exceed our clients' expectations in both service and quality talent," said Anthony Cea, Senior Vice President, Oxford Healthcare Technology. "We are so proud to be recognized by KLAS for our quality of expertise with Epic implementations and we feel this further confirms our ability to deliver the right talent to the over 150 hospital systems we partner with."
